Subject Re: Fw: Impending CERCLA 104(e) mailing

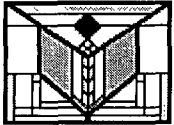

History:

This message has been replied to

Harry: it's a go. Tom doesn't want to hold things up. Cathy's had time to alert her counterparts in other regions. It's been several weeks. No need to hold up any longer. Giving the SLOs a few days to give adequate notice is enough

Connie, 4/27/05

Subject Fw: Impending CERCLA 104(e) mailing

Good Morning, Con,
I don't know if we ever got the green light for this one. Could you help me out?

Harry

Subject Re: Fw: Impending CERCLA 104(e) mailing

Cathy:

We haven't been sending copies of the enforcement actions in this process, which is primarily an opportunity to give notice that an action will occur. If the addressees have questions or concerns, they should be contacting the originators (Region 3 Superfund).

The SLO has the option of giving notice to a number of parties (the state, the addressee) prior to sending. If the issue appears to be enforcement sensitive (other on-going enforcement actions, DOJ involvement, etc), you might want to check with ORC or OEC&EJ.

It should be sufficient for the other regions to know that a letter of this magnitude is going out. If they want to get deeper into the matter, they can call the originator (Harry Steinmetz) or check in with their local Superfund Program for more information on 104(e) Letters.

PFE ORIGINAL

If you'd like to sit down with the Program folks, let me know and I'll set something up.

Thanks.

Hi, Connie. A few folks have asked for a copy of the actual letter. Can you send me a copy?

Thanks,
Cathy

Catherine --

I would be interested in seeing the information request letter -- can I assume that almost identical letters are being sent to this group? Is this the first time that these schools will be notified that they are PRPs?

Thanks

Pat Carr, Region 2 -- 212-637-3652

Subject: Fw: Impending CERCLA 104(e) mailing

Sorry for those of you that don't need this. Just wanted to make sure that our state and congressional affairs counterparts were aware that this CERCLA 104(e) mailing would be going out to some recipients in other Regions. See below. The requests for approval that you see in the emails below have been given, so this will likely go out next week. If you have any questions, give me a call.

Here's 53 Request for Information Letters under Sec. 104(e) of CERCLA ready to go. Because the list covers recipients within and outside of Region 3, I've copied all of the SLOs. If you approve, let me know and I'll inform the Program.

Connie, 3/3/05

University of Washington - Washington
University of Wisconsin - Wisconsin
Vanderbilt University - Tennessee
Western Washington University -
Wilkes University - Pennsylvania
Yale University Connecticut - Connecticut
Yale University School of Medicine - Connecticut

Location: Bloomsburg, Pennsylvania

Enforcement Document: Information Requests (CERCLA §104[e] letters)

Projected Date: March 15, 2005

Based on information gathered through file reviews at the NRC offices in King of Prussia, site records and ledgers strongly suggest that the above entities may have had a business relationship with entities past and present at the Safety Light Site.

Safety Light Corporation site, which is an active manufacturing facility occupying approximately 2 acres of a 10-acre property adjacent to the Susquehanna River off Old Berwick Road, Bloomsburg, Columbia County, Pennsylvania. Safety Light Corporation presently uses tritium in the manufacture of self-illuminated signs. Past disposal practices of various radioactive isotopes at the site resulted in radiological contamination of on-site soils and groundwater.

If you have any questions, please call me at 4-3161.
